Western Pacific Storage Systems

We manufacture storage system products for any type of business.

- Trusted brands for over 30 years
- Dedicated to being the premier, value-added supplier
- Customer service representatives and design associates over 3 time zones
- Professionally trained engineers and CAD operators provide engineering support
- 3 distribution centers striving for 100% on time shipment rate
- Best lead times available in the Material Handling Industry

We Have The Storage Solution for You

RiveTier[®]

The Original Boltless Shelving

RiveTier[®] Boltless Shelving assembles quickly and easily using only a rubber mallet. No Cross braces means you have double-sided access to your materials for efficient loading and unloading. In minutes, your RiveTier storage system is ready to work!

- 40% less expensive than metal shelving
- 30% less expensive to assemble than metal shelving
- Heavy-duty bulk or low profile applications
- Typically utilizes particle board decking—wire or steel shelves available

The original boltless shelving!

Pacific

Compression Clip Shelving

Pacific Compression Clip Shelving

- Cost effective.
- Open shelving provides the most basic all-purpose storage.
- Light-duty shelving offers an affordable option for light to medium duty applications.
- Closed shelving includes metal back and side enclosing panels added to the basic open unit.
- Bin units utilize full-height dividers to create individual storage bins.
- Catwalk systems efficiently expand your capacity while minimizing your overhead costs.

Design and Engineering

Our systems are designed to grow with your business. Our design and engineering team can custom develop a system to meet your needs—and your budget—no matter what your business application.

QuikPik® Gravity Flow Rack

Make better use of your space with QuikPik Flow Rack. Cut walking time and labor costs 75% and store 100% of product in half the space!

- FIFO inventory control
- Cut walking time
- Store more in less space—fewer aisles required
- Separate picking from stocking
- Capacity to 50 PSF in welded or KD shelves
- UHB allows for retrofit into most pallet rack styles

Industrial Structures

Freestanding Mezzanine Systems

Put an Industrial Structures Mezzanine to work anywhere you want to take advantage of usable cubic footage.

- Less than 30% of the cost of a new building
- Add office space
- Increase storage space
- Increase production area
- Centralize or consolidate operations
- Avoid moving expenses
- Available in formed galvanized channels or a structural steel design

The Deluxe Original Box Shelf is designed to be the strongest one-piece shelf available.

- Open shelving provides the most basic all-purpose storage.
- Closed units are enclosed with metal back and side panels.
- Bin units utilize full-height dividers to create small, individual storage bins.
- Catwalk systems efficiently expand your capacity while minimizing your overhead costs.
