

Texan & material handling executive Stacy Corn joins Western Pacific to serve central southern U.S.

Material handling executive and North Texas resident Stacy Corn, has joined the senior team at California-based manufacturer Western Pacific Storage Solutions (WPSS). Mr. Corn's role will be Regional Sales Manager in the central southern U.S.

For over 30 years, Western Pacific Storage Solutions (WPSS) has manufactured industrial shelving and work platforms (mezzanines) and sought to serve the smartest links in the supply chain with a team of knowledgeable solutions providers. Stacy Corn fits that description.

Mr. Corn's major ambition has been to "bring a solution that allows customers to operate more efficiently."

In 23 years of working with distribution, warehousing and manufacturing clients, Stacy has savored the ability to serve spirited, innovative, forward-thinking partners that he sees in the people of the southern part of the U.S. – men and women with "can-do" attitudes. These southerners not only think "outside of the box", but think "there is no box". Stacy finds working with these types of professionals inspiring.

Stacy is most thankful for values learned from his parents and from his earliest jobs. He shares, "At the beginning and the end of the day, I am here to serve customers' needs first. Their satisfaction is always first in my eyes. Above and beyond all else, professional,

courteous and responsive service in every aspect to customers I serve is my primary goal."

Stacy will be responsible for customers in the central southern U.S., including: Arkansas, Kansas, Louisiana, Mississippi, Alabama, Oklahoma and Texas.

Stacy is a graduate of Baylor University with a degree in Business Management & Marketing.

His sales career in Material Handling Equipment started in 1994 and he has worked most of the last 23 years as a Core Sales Rep, Territory Manager, Major Accounts Manager and Senior Sales Representative in the North Texas market.

Stacy brings a proven track record of success in sales and customer development, which will be invaluable in meeting the revenue and growth goals of Western Pacific's dealers and customers.
